

## *Management Development Institutes*

### *Business Schools Reported as Teaching Social and Environmental Management Courses*

The following business schools currently report that they conduct teaching and research in areas relevant to the Global Compact (in particular, social and environmental management).

This list is derived in great part from the Aspen ISIB / WRI survey “*Beyond Grey Pinstripes 2001: Preparing MBAs for Social and Environmental Stewardship*” ([www.beyondgreypinstripes.org](http://www.beyondgreypinstripes.org)) and displays a strong bias towards North American institutions. It is important to point out that, as with all surveys, the database is reliant on self-reporting by schools and additional, comprehensive research is required to obtain a more balanced perspective of the teaching currently available on a global basis.

Listings in normal font are from the Aspen ISIB / WRI survey. Those from our own research are shown in *italic font*.
